(Comments from some participants on previous courses)

"I really enjoyed the course and I found it has enabled me to make my dream a reality - the thing I had most difficulty with was the business plan and some structured sessions on the computer doing my business plan - I'll really miss the sessions"
(Women Only Course 97)

"The training lecturers were excellent in providing information and it is also encouraging to know that this is not the end of the training but that we can go back to them for any extra help we might need along the way - I have benefitted immensely and I think such courses should be more publicised for more people to join" (Business Start-Up SE1 97)
